

## Lotus Labs; why India's No 1 CRO??

Hi %BASIC:FIRST\_NAME%,

### [Changing Clinical Trial Regulatory Scenario In India](#)

Innovative Clinical Trials are making their way into India with trial approvals going up.

With the new government coming into power, positive initiatives have been taken to revive the industry which has translated in the increasing number of trials being approved. These initiatives have drawn attention of many sponsors to conduct clinical trials in India.

As per data released by CDSCO in July, 76 clinical studies had been approved by end of May which is nearly three times as many as were given the green light during the equivalent period in 2013.

### [ICH plans new guidance on multi-regional clinical trials](#)

As the US FDA, EMA and Japan's PMDA have released guidelines and related position papers on multi-regional clinical trials, the ICH is now proposing to do the same but with a more multi-national approach.

### [Clinical trials: the technology catching cheating volunteers](#)

The increasing prevalence of biosimilars will have a noticeably negative impact on the biologics market beyond 2019, despite an initial projected CAGR of 8.3%, taking the overall biologics market value from \$162 billion in 2013 to more than \$262 billion by 2019.
